

## TECHNICAL INFORMATION

Catalog Number: 151298

### 2-Hydroxy-1-naphthaldehyde

#### Structure:

**Molecular Formula:** C<sub>11</sub>H<sub>8</sub>O<sub>2</sub>

**Molecular Weight:** 172.2

**CAS # :** 708-06-5

**Physical Appearance:** Yellow-brown powder with lumps

**Description:** Use in Merrifield-type synthesis to determine free amino acid groups in polymers.

**Solubility:** Soluble in methanol hot (0.1 g / 10 ml-clear to slightly yellow)
