Certificate of Analysis

Product: SEQDirect 96 PCR Cleaning Kit
Catalog No.: 9904-200
Lot No.: 34810

DESCRIPTION:

SEQDirect 96 PCR Cleaning Kit is used to rapidly purify PCR products for fluorescent cycle sequencing. SEQDirect makes it possible to purify and stabilize PCR products eliminating the need to immediately sequence.

STORAGE CONDITIONS

All SEQDirect 96 PCR Cleaning Kits are shipped dry ice to maintain freezing temperatures. Store all SEQDirect 96 PCR Cleaning Kit reagents in a -20°C freezer. Expiration date is March, 2017.

SPECIFICATION:

Component: SEQDirect 96-Well Plate
1 96-well plate
Lot: 34810
Result: Passes

Each well of the 96-well plate contains the following reagents:

Reagent: Apyrase
Lot: 8652
Result: Passes

Reagent: Exonuclease I
Lot: 7498H
Result: Passes

Reagent: DESDES
Lot: 7509
Result: Passes

QUALITY CONTROL SPECIFICATION:

Sequencing Electropherogram Test
Result: Passes
